GEORGIA GROWN SEED.

Seed Bulletin

N. L. Willet Drug Co.,

Seed Contracting
and Jobbing Department.

For Present and Also Future Delivery.

AUGUSTA, GA., November 15th, 1903.

This Bulletin only for the Wholesale Trade.

On many of these Seeds we are the largest contracting growers in the United States.

PRESERVE THIS SHEET.

GEORGIA COTTONS (30 lbs.) We not make Quotations for f. o. b. Buyer.

KING'S COTTON—For Texas. The earliest of all cotton, nearly a 90-day cotton. Picked out in Ga. largely in August. Its shape lets in sunshine and makes it largely immune to anthracnose or boll worm. Its *earliness* makes it largely safe from Mexican boll weevil. In King Cotton seems to lie the salvation of the Texas cotton growers—500 to 1,000 cars may be wanted by Dec. 31. The demand will far exceed supply—this being our only early cotton. Prices will rapidly increase. Our supply consists of a large number of car loads of genuine King seed from the farms of the prime originator in N. C. We make car shipments from that point; less than car from Augusta—we bringing in car lot here. Rates good to December 31 only, as promulgated by R. R's are in car lots 30,000 lbs. North Carolina to Texas Common Points (about 1,700 stations) 48c per 100 lbs. or 14 $\frac{1}{4}$ c per bus. Freight Rates Augusta, Ga., to Texas Common Points, as promulgated, car lots is 37c per 100 lbs. or 11 $\frac{1}{4}$ c per bus. and less than car \$1.10 100 lbs. (33c a bus.) Our prices to-day Nov. delivery, are car lots f. o. b. N. C. 52c a bus.; less than car f. o. b. Augusta 5 to 25 bus. at 65c; 25 to 100 bus. at 60c bus. Cash with order. Reference Ga. R. R. Bank, Augusta. Beware of N. C. Oil Mill Cotton Seed—miscellaneous mixed scrub seed, no earlier and no better than Mississippi Oil Mill Seed.

RUSSELL BIG BOLL COTTON—The best of all big boll cotton. Nov. delivery f. o. b. Augusta, car lots 50c a bus.; 100 bus. at 53c; 25 to 50 at 55c and 5 at 60c. F. o. b. originator in Ala.,

car at 5cc a bus., less than car 60c, and 5 bus. at 65c.

PETERKIN COTTON—The type of cotton usually grown in the South. Stands rough culture and usage, and drought. Same price as Russells.

HAWKINS, TRUITT, TOOLE—(most excellent cotton), all at 60c a bus. in 5 bus. and over,

BERRY, SCHLEY, CHRISTOPHER, STRICKLAND, HERLONG, JONES, TEXAS OAK—All at 75c.

LONG STAPLES—DOUGHTY'S, COOKS, ALLENS—All at 75c per bushel.

CULPEPPER, EXCELSIOR PROLIFIC—At \$1.00 a bushel.

FLORODORA—At \$2.00 a bushel.

SHINES EARLY—At \$1.50 per bushel.

SEA ISLAND—(42 lbs.) 1 bus., \$1.25; 5 at \$1.15; 25 at \$1.10.

WILLET'S RED LEAF COTTON—New. Leaves, stalks and limbs and half of boll a deep maroon or wine color, resembling color of colea leaves. Lint white and of especial strength. Was found as a beautiful pot plant in Ill. Plant is tall and stout. Seed green white. Good size boll, with 4 to 5 locks. Over a bale was made to acre this year. This year it was wholly free from rust and was drought resistant while cotton about it rusted and otherwise suffered. From one year's experience this new type on account of its beauty, resistant strength and productiveness is worthy of trial. Supply limited 1 pt. 25c postpaid; 1 qt. postpaid, 40c; 1 peck, \$1.25; $\frac{1}{2}$ bus. \$2.25; bus. \$4.00.

Georgia Collards—None in grower's hands.
